CAMOZZI
Digital & Mechatronics

Document 5000082050 VER.01

The Camozzi Digital & Mechatronics B.U. Electronics prioritizes – alongside profitability – product and service quality, occupational health and safety (OHS), environmental protection, and the compatibility of its operations with the local area, as detailed in the Group's Sustainability Report.

Management therefore commits to implementing its Quality Policy and making it available to anyone upon request, focusing on the following:

- Addressing both explicit and implicit customer needs
- Manufacturing reliable, technologically advanced products that compete with the best in the market and comply with mandatory requirements, while offering efficient and effective service
- Meeting customer expectations
- Aiming for staff satisfaction within the organization
- Seeking and implementing continuous improvement actions based on "Lean" principles
- Enhancing the organization's expertise by identifying new development areas within its operational scope
- Implementing and maintaining an effective Quality Management System in accordance with UNI EN ISO 9001 standards, while systematically updating and applying defined procedures and mandatory documentation to support the organization
- Defining well-considered, achievable objectives aligned with Camozzi Group strategies, while identifying and managing associated risks and opportunities through a risk-based thinking approach
- Periodically evaluating business performance using Quality System tools, and updating or redefining the Quality Policy with new objectives based on results achieved
- Analyzing the root causes of non-conformities as a starting point for defining appropriate corrective and preventive actions, and implementing a continuous improvement plan

Brescia, 19/10/2026
